MCA – Manipal University Jaipur (2023–2025)

WORK EXPERIENCE

timble ai . | feb 2026 – Present

UI/UX Desinger

At Timble AI, I work as a UI/UX Designer, where I design intuitive and user-centric digital experiences for both product interfaces and company websites. I am involved in the complete design process, from understanding requirements and creating wireframes to delivering high-fidelity UI designs.

Ezbizsoft | Dec 2024 – Feb 2026

UI/UX Designer

I work as a UI/UX Designer, contributing to the design of both mobile applications and web platforms. I design app interfaces using React Native and create modern, responsive website designs for web. I am involved in real-time projects, handling the complete design process from wireframing to final UI, while collaborating with developers to ensure smooth implementation.

Real time projects

• QR-Tigya (Lost & Found Platform)

Designed a user-friendly website for a QR-based lost & found system, focusing on smooth scanning and reporting flow.

• Audit Web Platform

Designed an audit management web app with structured UI for easy navigation, reporting, and data handling.

• Finedge (Fintech App)

Designed a SIP & investment app end-to-end; currently live on App Store & Play Store.

• Company Websites

Designed responsive, modern company websites for real-time projects aligned with business needs.
